### **Note to member seeking nomination.**

*Two union members you seek to represent must nominate you. You may not nominate yourself. If more than one rep is nominated for a constituency\* then either the reps will have to stand for election or they will need to agree to job share. If you are unsure of your constituency speak to your Convenor (senior UNISON steward for your employer) or to the Branch Secretary. The period of office for all branch officers ends at the branch Annual General Meeting (normally February each year).*

*The role of a rep is unpaid but by law employers who recognise the union are required to give you reasonable time with pay to complete your union duties. Your key role is to make sure the union and management are aware of the concerns of members and members know of the views of the union. Following training you may undertake representation of members and deal with cases.*

**Please return this form to your convenor or the branch office at the above address.**

\* A constituency is typically a ward / department or workgroup of about 20 members eg porters or OTs
